## exercism

This one is really good for practicing specific coding challenges. They have over 3450+ short exercises split into 67 different programming languages.

The screenshot shows the homepage of exercism.org. At the top, there's a navigation bar with links: Learn, Discover, Contribute, and More. On the right, there are buttons for Sign up and Log in. The main heading is "Get really good at programming." followed by a subtext: "Develop fluency in 67 programming languages with our unique blend of learning, practice and mentoring. Exercism is fun, effective and 100% free, forever." Below this, there are two buttons: "Sign up for free" and "Explore languages". To the right, there's an illustration of three people (two women and one man) looking at a laptop. Below the illustration are five hexagonal icons representing different programming languages: C, JavaScript, Python, Ruby, and Swift. At the bottom, there's a section with a hexagonal icon containing a grid pattern, followed by the text "Explore and get fluent in 67 programming languages".

That's It.

05.

## resumake

This website have beautiful tailored templates for developers, designers and more. You just enter your info and it generates a high-quality PDF.

The screenshot displays the resumake website interface. On the left, there's a dark sidebar with the 'resumake' logo and two buttons: 'Make New Resume' and 'Import JSON'. The main area shows a preview of a resume template for 'Dwight K. Schrute III'. The resume includes sections for 'EXPERIENCE' (Dunder Mifflin Regional Manager), 'EDUCATION' (Scranton University), and 'HOBBIES' (Basketball, Reading, etc.). The website footer shows '© 2018 Saeed Guadri' and navigation links: 'About', 'Source', 'Issues', 'Contact', 'Donate'.
